WORK EXPERIENCE

Founder 2023 - Present

TMC Insight Labs | Lagos, Nigeria

TMC Insight Labs is a Digital Innovation Hub founded in 2023 to help Small and Medium Enterprises (SMEs) leverage technology in their operations. The company is set up to:

- Improve businesses' competitiveness by employing digital technology
- Provide skills, training and support in the area of advanced digital skills
- Improve company business models through the use of new technologies and more...

Chief Technology Officer 2015 - Present

Toki Mabogunje & Co (TMC) | Lagos, Nigeria

As C.T.O and Head, Communications and Technology, I am responsible for all of our online digital efforts - including but not limited to the following:

- Website Front & Backend Development
- Digital Marketing
- Business Intelligence & Analytics

Software Engineer 2013 - 2015

The Math Forum | Philadelphia PA, USA

My time at The Math Forum was spent creating tools for pedagogic teaching and learning at the high school level. In particular, my responsibilities revolved around one all-encompassing tool, aptly named **EnComPass**

- Javascript Front & Backend Development (Node JS, Ember JS)
- NoSQL Database Design (Mongo DB)
- BDD (Regression, Integration, Code Quality, & Unit Tests)

Web Developer 2008 - 2012

Drexel University | Philadelphia PA, USA

I started working for the Drexel University Computer Science Department as an Undergraduate. At the time, the department was moving from MediaWiki to Drupal, so all my work involved Drupal customizations.

- On-demand Development of Drupal templates, views, and other features
- Content Management, Taxonomy, and Classification
- Data Migration

Application Developer 2009

JPMorgan Chase & Co | Wilmington DE, USA

At JPMC I worked for the Ethical Hacking Team responsible for evaluating and ensuring the security of the firm's applications. I built a Vulnerability Assessment tool for the team to rate the vulnerability of applications according to the CVSS 2 Standard.

- Windows Application Development (C#)
- Relational Database Design (MySQL)
- Application Architecture (UML)
